

Dear Demetria and Stephen

I've sent you just now by WeTransfer the SWNP which has incorporated the Reg 14 consultation comments and the feedback from the Health Checker. The health check recommended the tightening up of some phrases to make them more effective but made no material change to the spirit or intentions of the plan. So we do not need to re-consult.

For completeness, it was approved by Full Council to send to you on December 14<sup>th</sup> – minute reference:

FC 151-20

**Update on Saffron Walden Neighbourhood Plan (NP)**

It was **Resolved**:

To note that the NP had been subject to an independent health check and recommended changes made. The NP as presented was approved by Council for submission to UDC under Regulation 15 of the Neighbourhood Planning (General)

I sent it as a PDF with everything combined in one document. If this becomes unwieldy or you need it in word, then I can happily send you sections, as required.

Best wishes

Planning and Projects Development Officer
