

**UTTLESFORD DISTRICT COUNCIL  
5-YEAR HOUSING LAND SUPPLY STATEMENT  
STATUS AT 1 APRIL 2024  
PUBLISHED 20 AUGUST 2024**

---

**Executive Summary**

1. Uttlesford District Council is able to demonstrate a housing land supply of **4.12 years**.
2. The National Planning Policy Framework 2023 (NPPF) stipulates that Local Planning Authorities (LPA's) must identify their housing need and annually review their housing land supply. The purpose of this statement is to determine whether a sufficient number of deliverable sites exist within Uttlesford to provide for the delivery of five years' worth of housing when compared against the local housing need figure, plus an appropriate buffer.
3. However, Paragraph 226 of the NPPF allows for LPA's that have reached Regulation 18 or 19 stage of the plan-making process, including the publication of both a policies map and proposed allocations towards meeting housing need, to only be required to identify deliverable sites equating to a minimum of four years' worth of the local housing need. Paragraph 226 was engaged on 8<sup>th</sup> August 2024, following Uttlesford's publication of its Regulation 19 Local Plan.
4. As Uttlesford District Council's adopted strategic policies from the Local Plan 2005 are more than five years old, the Council assesses its deliverable supply of housing against its calculated local housing need figure.
5. The Council's local housing need figure, as derived from the Government's Standard Method, is 675 dwellings per annum<sup>1</sup>, or 2,700 when accounting for a four-year requirement. The 2022 Housing Delivery Test result (the most recent version published by the Government) and the rules set in Paragraph 74 of the NPPF require a 20% buffer to be added to this figure, resulting in a total requirement of 3,240 dwellings.
6. The availability of deliverable sites within Uttlesford demonstrates a projected supply of 3,335 dwellings, equating to a surplus of 95 dwellings when compared against the 4-year requirement (including a 20% buffer).
7. On the 30<sup>th</sup> July 2024, the Government published its proposed changes to the NPPF for consultation. This consultation draft proposes the removal of Paragraph 226 in its current format, thereby removing the reduced 4-year supply requirement available to LPA's at an advanced plan-making stage.

---

<sup>1</sup> Justin Gardner Consulting, Local Housing Needs Assessment, 2024, Available at: <https://www.uttlesford.gov.uk/reg-19-evidence>

8. It is not yet certain whether the NPPF will be updated in exact accordance with the changes that are being consulted on, nor is it clear precisely when an updated NPPF would be published. Accordingly, this statement also sets out the Council's land supply when compared against its 5-year housing requirement, in anticipation of an updated NPPF. When compared against the 5-year requirement of 4,050 dwellings (incl. 20% buffer), the Council's projections for deliverable sites indicate a 715-dwelling shortfall.

## **Introduction**

9. The National Planning Policy Framework 2023 (NPPF) stipulates that Local Planning Authorities (LPA's) must annually review their housing land supply against 5-years worth of their locally identified housing need. Pursuant to this requirement, this statement identifies the deliverable sites for housing which exist within Uttlesford and assesses the number of homes this would provide against the Council's need for five years' worth of housing plus an appropriate buffer.
10. However, Paragraph 226 of the NPPF allows for LPA's that have reached the Regulation 18 or 19 stage of the plan-making process, including the publication of both a policies map and proposed allocations towards meeting housing need, to only be required to identify deliverable sites equating to a minimum of four years' worth of the local housing need. Paragraph 226 was engaged on 8<sup>th</sup> August 2024 following Uttlesford's publication of its Regulation 19 Local Plan.
11. The housing land supply data uses a base date of 1<sup>st</sup> April 2024 and uses known data i.e. extant planning permissions. A breakdown of sites included within the Council's housing land supply is set out within Appendix 1. The 5-year period within which the deliverability of residential permissions has been assessed covers the period 2024/25 to 2028/29.

## **Four-year Housing Requirement**

12. The Council's adopted Local Plan 2005 pre-dates the NPPF 2023. A new Local Plan is currently being prepared with the Regulation 19 version of this document published in August 2024. Consequently, the Standard Method<sup>2</sup> is to be used when calculating the annual local housing need figure.
13. In addition to the local housing need figure, NPPF Paragraph 77 states that "Where there has been significant under delivery of housing over the previous three years, the supply of specific deliverable sites should in addition include a buffer of 20%." Past under-delivery is measured using the Housing Delivery Test (HDT). The latest HDT for Uttlesford was measured in 2022 and indicated that 58% of the required housing delivery over the last three years

---

<sup>2</sup> Ministry of Housing, Communities and Local Government, Housing and Economic Needs Assessment Planning Practice Guidance, 2020, Available at: <https://www.gov.uk/guidance/housing-and-economic-development-needs-assessments>

has been met. Consequently, a 20% buffer above the Council's local housing need figure is required.

14. The Standard Method identifies an annual housing requirement of 675 dwellings per annum (dpa) for Uttlesford, or 2,700 over a four-year period. Once the 20% buffer is applied, this results in a four-year housing requirement of 3,240 dwellings.

## **5-Year Housing Requirement**

15. On the 30<sup>th</sup> July 2024, the Government published its proposed changes to the NPPF for consultation. This consultation draft proposes the removal of Paragraph 226 in its current format, thereby removing the reduced 4-year supply requirement available to Council's at an advanced plan-making stage.
16. It is not yet certain whether the NPPF will be updated in exact accordance with the changes that are being consulted on, nor is it clear precisely when an updated NPPF would be published. Accordingly, in anticipation of an updated NPPF which removes the 4-year housing requirement, the Council's 5-year housing requirement is as follows.
17. The Standard Method figure of 675 dpa equates to 3,375 over a five-year period. As above, a 20% buffer is required and once applied, results in a five-year housing requirement of 4,050 dwellings.

## **Housing Supply**

18. As part of the Regulation 19 draft Local Plan, an Uttlesford Housing Trajectory 2021 – 2041<sup>3</sup> was published separately which lists all the sites which are considered to provide housing during the period up to 2041, including the draft allocations proposed within the Regulation 19 Local Plan. These sites are not included within this 5YHLS Statement and have been reported on separately as part of the Local Plan consultation.
19. The housing supply set out within this statement relies upon sites equal to or greater than 10 dwellings only where they benefit from detailed (Full or Reserved Matters) permission. Sites less than 10 dwellings have contributed to the housing supply whether they have a detailed or Outline permission. This approach is consistent with the NPPF definition of what constitutes a 'deliverable' site over the next 5-years. Sites equal to or greater than 10 dwellings which only benefit from Outline permissions fall outside the 5-year period and can be viewed alongside the draft allocations within the full Housing Trajectory 2021-2041 for the Regulation 19 Local Plan.
20. This 5YHLS Statement includes an allowance for windfall sites of 110 dwellings per year (only for the years 2027/28 and 2028/29 respectively)

---

<sup>3</sup> Uttlesford District Council, Uttlesford Housing Trajectory 2021-2041, 2024, Available at: <https://www.uttlesford.gov.uk/reg-19-evidence>

based on historic rates of completions on small sites (1-4 dwellings over the period 2014/15-2023/24) below the Housing and Economic Land Availability Assessment (HELAA) minimum site size threshold. The long-term trend is for 123 dwellings per annum to be completed on small sites (Table 1), however, a cautious 110 dwellings is assumed. To avoid double counting existing commitments, no allowance for windfall is made in the three years 2024/25 – 2026/27. Small sites with planning permission have been included and are assumed to be completed in the next three years.

<b>Table 1: Historic delivery rate of small sites (1-4 dwellings)(net)</b>	
2014/15	76
2015/16	148
2016/17	144
2017/18	95
2018/19	156
2019/20	155
2020/21	166
2021/22	79
2022/23	127
2023/24	87
Total	1233
Annual Average	123

21. It is noted that the Government’s Planning Practice Guidance does not suggest including a “lapse rate” or “non-implementation rate”, however, it is not realistic to assume that all extant permissions will be implemented at a particular date in time and a 10% lapse rate on small sites has been applied to accommodate this.
22. Table 2 shows a summary of the projected completions for each year during the 5-year period. Figure 1 shows these estimated completions against the annual housing requirement (including 20% buffer).

<b>Table 2: Forecast completions for next 5-year period</b>						
Year:	2024/25	2025/26	2026/27	2027/28	2028/29	Total
	Year 1	Year 2	Year 3	Year 4	Year 5	
Estimated completions years 1-5 (including windfall allowance)	534	596	795	755	655	<b>3335</b>

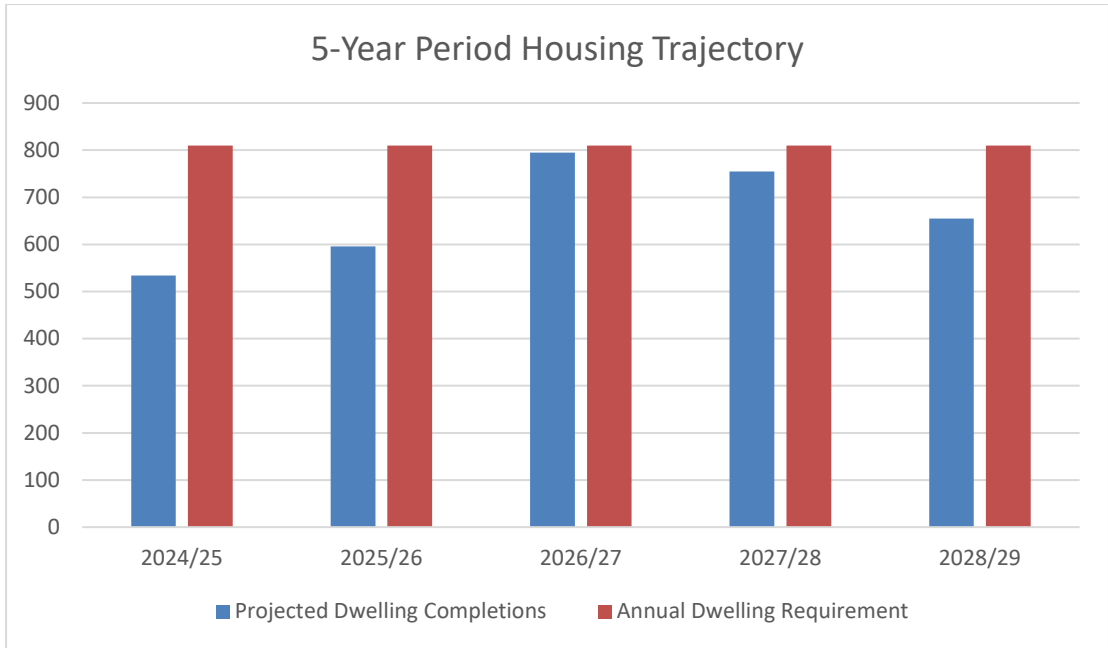

Figure 1 Chart Showing Estimated Dwelling Completions over the 5-Year Period

23. Site specific delivery projections, shown in Appendix 1, have been determined with consideration to several factors, including the planning status of the site, the scale of the site, the submission / approval of corresponding planning and building control applications, industry average lead-in times and delivery rates, and site visits.

### Calculation of the Housing Land Supply

24. Table 3 shows the calculation of the housing land supply in Uttlesford. This is based on the housing target of 675 dwellings per annum as calculated by the Standard Method. A 20% buffer is required to be applied to this figure, as explained in Paragraph 13 above.

Table 3: Calculation of Housing Land Supply		
Annual Target	N/A	675
20% of Target	675 x 20%	135
Annual Target incl. Buffer	675 + 135	810
Overall 4-Year Target	810 x 4	3,240
Overall 5-Year Target	810 x 5	4,050
Supply	534 + 596 + 795 + 755 + 655	3,335
<b>Supply in years:</b>	<b>(3,335 / 810)</b>	<b>4.12 years</b>

25. The demonstration of a housing land supply of **4.12 years** is sufficient to meet Uttlesford's current minimum requirement of 4-years as set out by Paragraph

226 of the NPPF. However, taking account of the Government's proposed changes to the NPPF, it may be the case in the future that this paragraph is removed or substantively changed. Should this occur, the Council's housing land supply would fall short of meeting the 5-year requirement as shown in Table 4.

<b>Table 4: Variation from 4 and 5-Year Requirements</b>		
Variation from 4-Year Requirement	3,335 – 3,240	95
Variation from 5-Year Requirement	3,335 – 4,050	-715

## **Appendix 1: 5-Year Housing Land Supply Site Breakdown**

Application Reference	Site Address	Description	Date of Permission	Capacity (Gross)	Units Lost	Capacity (Net)	Pre 5-Year Period	2024/25	2025/26	2026/27	2027/28	2028/29	Dwellings Delivered During 5-Year Period	Site Capacity Post 5-Year Period	Notes on Deliverability
