

Uttlesford Housing Market Report – March (Q4)

Introduction

This report will give a snapshot of house price data at ward level for the third quarter of 2018/19. This information is designed to provide information on the current housing market pressures within the District.

All information is taken from the web based analytics company, Hometrack. (Hometrack.co.uk) This information is based on sales data.

Context

Property prices in Uttlesford are higher than figures for the Region, (The East) due to the district's proximity to London and Cambridge. For example, a new build house is £402,400 for the Region compared to £514,200 for Uttlesford. The price of new builds for the Region has increased by £6,100 compared to new builds in Uttlesford has increased by £20,000 since Sept 2018¹.

Uttlesford prices over time

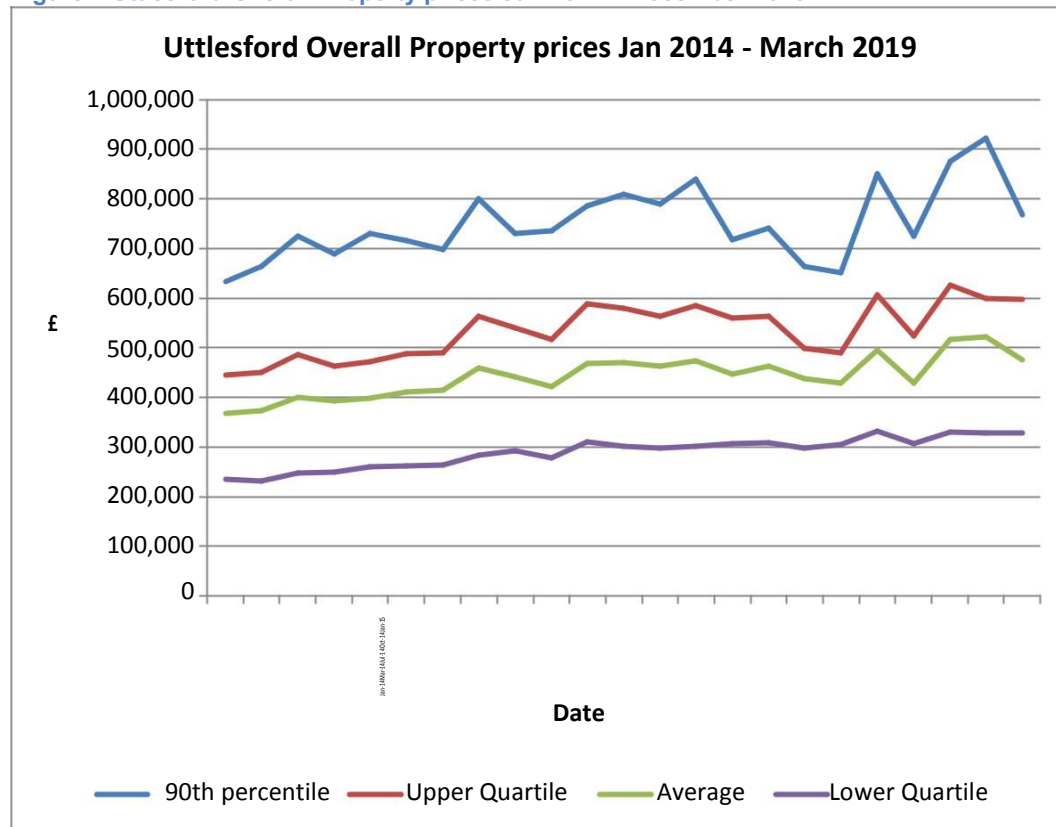

Figure 1 provides information on the overall property prices in Uttlesford between January 2014 to March 2019. The most expensive properties are within the 90th percentile compared to the lower quartile which provides information on the lowest 25% (prices) of properties.

The most expensive properties (90th percentile) have changed from £633,333 (Jan 2014) to £767,500 (March 2019) compared to the lowest properties which have changed from £253,833 (Jan 2014) to £328,333 (March 2019). This is an increase of 15% for the 90th percentile properties over the time frame but a reduction of -15% since December 2018 figure. Lower quartile homes have remained at 28% growth since January 2014.

The year on year change shows the most expensive homes have decreased by -9% since March 2018 and March 2019. Lower quartile homes have decreased by -1% for the same timeframe. However, prices remain higher than the regional average.

¹ This data is no longer collected by 'Hometrack' but remains a useful point for context.

Income

The District benefits from higher than average wages due to a large number of residents working within the technical and highly skilled professionals.

Sixty percent of residents earn below £34,000pa and 40% earn below £25,000. The overall average income for Uttlesford is £41,000 compared to the median (mid-range) of incomes amounting to £30,000.

To access the cheapest 2 bed property of £204,625 (Clavering) on the open market at March 2019, residents would need a joint household income of £49,694.

To meet the housing needs of local residents, the Council requires 40% of development on schemes over 15 units to be delivered as affordable homes. This will include an element of sub market rent and ownership products.

Sub market ownership products include shared ownership or shared equity. The shared ownership product enables purchasers to buy a portion of the property and rent the remainder. A deposit of only 5% is required on this product. Shared equity or Starter Home model allows residents to buy around 80% of the property without any additional rental charges. The standard 15% deposit would be required.

Conclusion

This report has provided a brief overview of the current housing market in Uttlesford at ward level.

Affordability remains difficult but the provision of affordable homes helps meet the needs for Uttlesford residents.
